Custer County Board of County Commissioners (BOCC) is looking for a contractor or maintenance company who would be interested in overseeing the maintenance and repairs for any of the Custer County Buildings. In this oversight, this person/company would be the point of contact for any minor construction/repair/maintenance issues that may arise. Once an issue has been reported, this person assesses the issue, schedules work, ensures completion of the work, and submits for payments.

BOCC is looking for someone with a strong knowledge of construction and preventative maintenance, and has established relationships with the 4 major construction trades (HVAC, Electrical, Plumbing, and General Contracting). If the work is something that the person is capable of doing, they can do the work and bill for time plus materials OR they can contact a contractor to do the work.

The oversight/management of this program is out for bid. For additional information, contact Jennifer Kriegh, BOCC Admin at 719-783-2552 or email boccadmin@custercounty-co.gov. Full proposal can be found on the Custer County Website: www.CusterCounty-CO.gov
