Installation Instructions for Ingress and Egress on County Maintained Roads DRIVEWAY ACCESS

Application must be filled out completely.

There will be a \$75.00 permit fee for ingress and egress on Custer County maintained roads, allowing a maximum 2 accesses per parcel.

Properties accessible from a subdivision road must be accessed from the subdivision road unless unusual circumstances exist.

Proposed driveway must be clearly staked or flagged prior to making application for a permit. Providing a plat map showing subdivision, filing, road name or number and lot number is helpful in filling out the application.

Culverts will have a **MINIMUM** length of thirty (30) feet. The inspector will determine the diameter and length of the culvert needed during the initial inspection.

Visibility from the driveway must be a minimum of 300 feet in both directions.

Installed culverts must be **Metal** and of annular or spiral construction, **NO** plastic.

Culverts must have a minimum of 6 inches of fill dirt and the top of the fill dirt must be level with the grade of the road.

Allow at least 2 weeks for the date of application for the initial inspection to be completed.

When completed applicant must be notified C.C R & B for final inspection.

Driveways constructed without a proper permit may be assessed a \$50.00 fine in addition to double the normal permit fee.

Driveway must be completed within 90 days from the date of application, in the event work is not completed within that 90 day period you must request an extension in the event.
