F. The Permittee shall maintain the installation at all times and agrees to hold the County of the agencies thereof, their offices and employees harmless from any and all claims, loss, and damage which arise out of or be connected with the installation herein referred to or any work or facility connected therewith, within the area covered by this permit to the extent of the negligence of the Permittee, its agents, servants or employees.

G. Only emergency work shall be performed on Saturdays, Sundays, or Holidays. No open trench or hole will be permitted in the traveled roadway after dark, unless otherwise specified on special provision.

H. The Permittee shall mark the location of the installed facilities in accordance with good practices at locations designated by the Custer County Road and Bridge Department.

I. In the event an improvements are made in the public right-of-way in the future that would reasonably necessitate relocation or removal of the Permittee's Installation, the Permittee will accomplish such relocation or removal and do so with a reasonable time interval at its own expense upon written request from CusterCounty .

J. In accepting this permit, the undersigned representing the Permittee, verifies that he has read and understands all of the foregoing provisions: that he has authority to sign for and bind the Permittee and that by virtue of his signature the Permittee is bound by all conditions set forth therein.

5. PROVSIONS FOR UNDRDGROUND INSTALLATIONS

A. Any underground installation shall be initially installed beneath the surface of the right-of-way at a minimum depth of 36 inches. This includes lines, cables, pipes, etc. All installation in the right-of-way must be place in a location agreed upon between Permittee and Permitter: all exceptions shall be so noted and initiated by Custer County on the work plans attached hereto. Any disturbed portion of the right-of-way shall be restored as well as or better than t he condition as existing immediatedly prior to the Pemiittee's installation, see Custer County Regulatory Policy, street, road cut permits, and required bonds section 1/10.8.

B. Where the installation exceeds three inches in diameter and crosses a roadway, it shall be encased in pipe of large diameter and the crossing shall be as nearly perpendicular to the roadway as physically possible. This installation shall be installed by the method of boring or jacking beneath the road surface. No water shall be used in the boring and no tunneling shall be permitted. Where the installation is less than 3 inches in diameter the use pipe will not be required.
