For Immediate Release

8/30/2023, Custer County, CO. Sheriff Rich Smith lifts Stage 1 Fire Ban. The amount of recent moisture received in Custer County and feedback from local fire departments, the Sheriff lifts the Stage 1 Fire Ban. Custer County Sheriff and local fire departments will continue to monitor conditions. In the event September brings dryer weather, be prepared to see a return of the fire ban. Continue to be safe and remember fire safety. Check out the National Fire Protection Awareness for some great fire safety information.

Before camping, make sure you know about fire bans for the area in which you are camping. Just because a county does not have a fire ban does not mean that the National Forest or Bureau of Land Management does not. Visit the National Forest Service Website and/or the Bureau of Land Management website for more information.
