Custer County Hazard Mitigation Plan Update

5:30-7:00 PM

Hope Lutheran Church, Lange Hall

Description:

Custer County is updating its 2017 Multi-Jurisdictional Hazard Mitigation Plan in collaboration with local municipalities and other community organizations. As part of this planning process, a public open house will be held on Thursday, December 16th from 5:30-7:00 PM. Residents and businesses are encouraged to stop by to enjoy some free appetizers and learn more about the plan. The event will be held at the Hope Lutheran Church's Lange Memorial Hall at 312 South Third Street in Westcliffe, Colorado.

The term "Hazard Mitigation" describes actions that can help reduce or eliminate long-term risks caused by hazards, such as floods, wildfires, drought, and earthquakes. Hazard mitigation is best accomplished when based on a comprehensive, long-term plan developed before a disaster strikes. This plan is designed to proactively reduce the risk of hazards facing the county by identifying a mitigation strategy for reducing future losses.

Custer County is committed to providing equal access to all programs to ensure nondiscrimination for individuals with access or functional needs. Should you require reasonable accommodation or for more information about this event, contact Custer County's Director of Emergency Management, Adrian Washington (719.269.7958 | adrian@custercountygov.com).

Virtual options are also available. For additional details, see the 'Public Zoom Meetings' link on the county website.
